CSIR-IHBT invites Expression of Interest (EOI)
for

“DNA Barcode based plant authentication system”

The DNA barcoding is a powerful technique for the authentication and identification of plant species by utilizing specific genetic markers. The salient feature of this technology is that it utilizes conserved nature of inherited genomic regions/gene sequences for rapid authentication of plants at species level. The integration of DNA barcoding into quality control protocols enhances the overall reliability and authentication of plant species.

Eoi is invited from interested industries/ SMIs/ Progressive Entrepreneurs for transfer of the above stated technology. Application should include details of company profile and marketing strategies. The selected parties shall be called for discussions. Interested parties may send their Expression of Interest, in a sealed cover superscripting “Expression of Interest” addressed to
