CSIR-IHBT invites Expression of Interest (EOI)
for
“DNA Fingerprinting of plant samples using molecular markers”

Molecular markers serve as indispensable tool for the estimation of genetic fidelity and genetic variability of the tissue culture raised plants. Despite their simplicity, they offer high reproducibility, ensuring accurate estimations of plant variation.

Eoi is invited from interested industries/ SMIs/ Progressive Entrepreneurs for transfer of the above stated technology. Application should include details of company profile and marketing strategies. The selected parties shall be called for discussions. Interested parties may send their Expression of Interest, in a sealed cover superscripting “Expression of Interest” addressed to

The Director
