CSIR-IHBT invites Expression of Interest (EOI)

for

**“Extraction and Purification Process of Aescin from Indian Horse Chestnut and Herbal Formulations to Treat Varicose Veins”**

CSIR-IHBT has developed a pilot scale process for extraction and purification of aescin of varying concentration (10-60% purity) as well as pure aescin (>90%) from seeds of Indian horse chestnut (*Aesculus indica*). Formulations using standardized extract (10-20% aescin), such as ointment, capsules and tablets have been developed for the treatment of varicose veins and related inflammation disorders.

Eoi is invited from interested industries/ SMI/ Progressive Entrepreneurs for transfer of the above stated technology.

Application should include details of company profile and marketing strategies. The selected parties shall be called for discussions. Interested parties may send their Expression of Interest, in a sealed cover superscripting “Expression of Interest” addressed to
